Summary

CS grad (Dec 2023) with 5+ years of UA IT support and recent creator/streaming infrastructure work. Strong at reading requirements, documenting networked/AV setups, and resolving issues fast. Targeting an Engineering Specialist role handling service calls and small projects.

Skills

- **Endpoint & field support:** Windows 10/11, macOS, VPN/remote, MFP/printer fleets (HP/Canon/Xerox), classroom/AV, ticketed workflows
- **Integration:** device config, low-voltage/PoE + peripherals, OBS/Twitch/YouTube stacks, Docker, networked equipment
- **Customer & delivery:** support programs, requirements intake, systems integrations, upgrade planning, wiring diagrams, database management

Experience

Owner / Technical Specialist

Jan 2023 – Present

Creator Systems (creator/streaming & IT services), Tucson, AZ (remote/on-site)

- Triage and resolve CRM tickets for PC, AV, and network issues for creator/small-business clients
- Administer on-site/remote AV and streaming setups and validate end-to-end signal paths
- Configure and maintain *elora-chat* (Go + Svelte/TS) with full emote support and containerized deployment
- Produce runbooks, wiring/connection diagrams, and equipment lists for repeatable setups

Information Technology Support Specialist & WNC Technician

Jan 2015 – Mar 2020

University IT Services & Workgroup Network Consulting, Tucson, AZ

- Delivered Tier 1/2 IT support (OS, VPN/remote, accounts, classroom/AV) for students, faculty, and staff
- Serviced departments via WNC, configuring networked printers/peripherals and repairing on-site workstations
- Analyzed ticket specs to determine technical requirements and equipment needs, then implemented or escalated
- Documented solutions in the knowledge base to reduce repeat and multi-device issues

Team Manager

Feb 2022 – Apr 2023

Alorica, Tucson, AZ

- Led a 15+ person customer-support team and coached to client procedures and professional call handling
- Handled escalations and rolled out updated technical/process requirements from operations

Software Engineering Intern (Project Lead)

Jun 2022 – Aug 2022

Tech Core, University of Arizona / AddictingGames

- Led a 7-person Unity/C# intern team on *TechDuel.io* and ran SCRUM standups and demos to hit milestones
- Coordinated features, QA, and delivery expectations with the external stakeholder

Projects

- **elora-chat** — Go + Svelte/TS chat for Twitch/YouTube with full emote support; Docker/self-host ready
- **Thunderdome Judging App** — React/Node/Postgres freestyle skate contest scoring in real time tied to livestream + ad hoc SQLite database/server
- **HOBY Ops Tools** — Go + Svelte/TS apps to clean and distribute highly sensitive participant/staff data

Education

University of Arizona, Tucson, AZ

Dec 2023

B.A. in Computer Science — Minor in Mathematics

Community & Leadership

Hugh O'Brian Youth Leadership (HOBY) — Volunteer, 2013–Present; AZ Director of Fundraising, 2023–Present
World Leadership Congress — Facilitator (2022) & Data/Tech Manager (2024)
